2007 MEMBERSHIP RATES

All categories of individual and club membership will be frozen at current minimum subscription rates for the next year following the increases in January 2006. The rates for owners of fishing rights and commercial fisheries are to be merged to make the system simpler, and in most cases to reduce the rates these owners pay for the protection we offer. We are all extremely keen to see this group expand in number so that wherever pollution or any other damage to fisheries occurs, the ACA can act. For those able to pay a little more, donations are of course always very welcome!
